

NOTTI TOSCANE

2026

WELCOME TO CELEBRITY ADVENTURES ITALY.

The Celebrity Adventures Foundation (CA) promotes elite global charity events.

CA was originally born out of the Celebrity Fight Night Foundation, which presented a star-studded evening in honour of legendary boxing champion Muhammad Ali.

A partnership with Andrea Bocelli has seen the Foundation expand internationally since 2014.

CA Italy is an annual programme of music, art and culture in renowned Italian cities attended by international celebrities.

Our events are the ultimate in 'experience travel', offering the beauty of Italy combined with the talent of some of the world's greatest artists.

LOCATIONS & VENUES

Previous locations have included Venice and Florence, while our 2018 finale show took place inside the walls of Rome's Colosseum.

Guests have taken in the hidden gem of Porto Venere on the Ligurian coast, and the Arena of Verona, the biggest open air opera theatre in the world.

Villa Alpebella, the Bocelli family's brand new house located near Forte dei Marmi on the Tyrrhenian sea, provided the setting for unique events.

THE ANDREA BOCELLI FOUNDATION

Empowering People & Communities

The Foundation was born in 2011 to empower people and communities in situations of poverty, illiteracy, distress due to illness and social exclusion, by promoting and supporting national and international projects.

Thanks to CA Italy, ABF can ensure educational continuity and healthcare for over 3,500 students at six schools in the poorest areas of Haiti, as well as guaranteeing wages for teachers.

In Italy, CA has allowed ABF to rebuild schools in communities where educational facilities

and meeting spaces had been devastated by the earthquake swarm; where the sense of belonging and the desire to begin again were as strong as the Foundation's desire to help.

In Sarnano, Muccia, Camerino and Sforzacosta, ABF has built beautiful, innovative, and safe schools in 150 days each. Access to education is so important to the formation of the citizens of tomorrow. ABF has been instrumental in bringing back normality to the everyday lives of the young students and their families.

THE OTHER BENEFICIARIES OF THIS YEAR'S CELEBRITY ADVENTURES "NOTTI TOSCANE" CHARITY EVENT:

ST. LUKE FOUNDATION

St. Lukes Foundation programs combine Haitian leadership with international partnership, creating lasting solutions to the most pressing challenges facing Haiti.

The St. Luke Foundation is a native, Haitian, benevolent organization which both helps those in immediate need, and empowers people whose lives are plagued by poverty and its deadly effects, by enabling community development and helping people determine their own future.

The St. Luke Foundation is part of the centuries old tradition of the Roman Catholic Church called corporal and spiritual works of mercy. Simply and beautifully stated, this means "faith in action," for the betterment of the poor and the betterment of the world. All aspects of the work of the St. Luke Foundation, financial and operational, are carried out in full independence of Church and State. We are respectful of the opinions and beliefs of both those who benefit from our help, as well those who offer help to us.

The mission of St. Luke Foundation is to provide healthcare, education, and dignified humanitarian outreach to the least served populations of Haiti, with programs that employ more than 1,000 Haitian staff members.

GRACE SOBER LIVING

Grace Sober Living opened its first home in 2021 to transform lives by providing Christian-centered recovery care and housing to people overcoming alcoholism and addiction. These residences are less restrictive than treatment programs. Residents can attend school, go to work, and enjoy social functions while living in the house, but are required to participate in recovery meetings, bible studies, ongoing counseling, and to contribute to making their environment clean and inviting for everyone.

The homes include recreational and exercise equipment to help residents reach optimal wellness through their recovery process.
